

Construction (Design & Management) Regulations 2015

CDM2015 Briefing

1 day Course/Workshop

This course/workshop is designed to provide delegates with an understanding of the requirements of the CDM Regulations 2015, including discussions on how the delegates' organisation can implement the necessary changes and what the changes could consist of.

Session 1 Introduction and Setting Course Objectives

Session 2 Legislation

History, application and definitions of the Construction (Design & Management) Regulations. CDM2015 transitional provisions. Domestic clients. Accident statistics and causations.

Session 3 Synopsis of the Main Duties of the Duty Holders

An outline of the interface of the parties involved in the construction process from concept to maintenance.

Session 4 Management

Management, information, instruction, training, supervision, cooperation, coordination, communication and BIM.

Session 5 Documentation

Pre-construction information, design information, construction phase plan and the health and safety file.

Session 6 Course Review and Conclusion

Course Objectives

Upon completion of the course, delegates should:

- appreciate the need, application and framework of the CDM regulations; and
- understand the duties and responsibilities of the client, principal designer, designers, principal contractor and contractors.

Maximum number of delegates: 16
